

FORMY SESSION OVER RENT ISSUE

During Accorded Landlords and
Tenants in Albany Threat-
ened Free For All Battle

ENES WERE MANY

Speculative Landlords' Charac-
terized As "Rent Hogs" and
Similar Expressions Common

Albany, March 23. — The hearing
ordered New York landlords and
tenants on legislation designed to curb
profligate, wound up tonight
a racket equalled only by that
at a world series game tied in
ninth.

Charges and counter charges, hisses
cheers, cat calls and frantic claps
of hands, mingled with cries of
"him out" as opposing sections
in debate before the special
legislative committee.

Landlords and tenants, about a hun-
dred to a side, who arrived here
from New York, faced each other
across the assembly chamber and
emerged at times that only the fact
they could not get at one another
prevented them from coming to blows.

Allegation "Speculative Landlords."

Municipal court justices from all
parts of New York denounced "spec-
ulative" landlords who raised rents as
"hogs," and conditions which they
were said later by James P. Car-
son, president of the State Federa-
tion of Labor, to apply with equal
force to other cities such as Buffalo,
Syracuse and Rochester.

The first real fireworks, however,
came after the Rev. Dr. C. C. Car-
son of New York had finished speak-
ing in behalf of the tenants, when
Carson, he said, he feared would die
of oppression increased. Just as
Carson was sitting down, Mrs.
J. C. Arthur of the Bronx speak-
ed and complained that Dr. H. W.
Carson, a really man, had passed an in-
jurious remark concerning Dr. Car-
son.

Carson's charge precipitated a scene
of "throw him out" came from
rent payers' side of the chamber,
hisses of derision greeted Dr.
Carson a few minutes later when he
said that the "high cost of labor
increasing building costs and lead-
ing not only to higher rents, but to
higher prices for all necessities." The
action that the literacy test be
passed to increase competition
among American workmen brought
hisses, but the climax was
reached when he warned the commit-
tee would hear from the 260,000
property owners at the next election if
passed the proposed measures.

His hissing continued when Stewart
Carson, president of the United Real
Estate Owners association arose. Dr.
Carson, denouncing the "dis-
graceful exhibition."

Not more disgraceful than the
action of the landlords behind closed
doors in New York," cried out Senator
A. Dunigan, a committee mem-
ber.

"Where you there, were?"

Fiorello LaGuardia? Cheered.

Carson was interrupted by a chorus of
catcalls, but above the din he could
be heard saying:

"I will hold you personally re-
sponsible for this disgraceful exhibi-
tion."

After the chairman had restored
order by threatening to adjourn the
meeting, Mr. Brown said he was not
in favor of a "15 per cent profit"
that he had warned "the land-
lords" if they did not assist in get-
ting legislation to improve the ten-
situation they would "get it in the neck."

Carson did not last long. Senator
Schackno received a roar of
applause from property owners when
he declared "there is no such thing
as an honest landlord in New York."

Carson's demands were made for an apology.
The senator insisted he had not
given a chance to complete his
speech and he refused to do so upon
demand.

There were cheers for Fiorello
LaGuardia, president of the New
York board of aldermen, when
he asserted that he came "not
to please the landlords, but
to help them." He termed Dr. Car-
son the "new type of land-
lord" who would give us more im-
moralism, so that we can go back to
the old times, more congestion and
overcrowding.

Against Rent Profligate.

FIND NO OPPOSITION TO GIBBS-LEE BILLS

Governor's Recommendation for
Executive Budget System De-
velops No Opponents

Albany, March 23. — No opposi-
tion was voiced at the hearings on the
Gibbs-Lee bills, designed to carry out
the recommendations of Governor
Smith's reconstruction commission for
the establishment of an executive
budget system, making all state offi-
cers, except the governor, lieutenant
governor and comptroller, appointive
instead of elective. There was some
opposition to lengthening the official
terms of governor and lieutenant gov-
ernor to four years.

Frederick C. Tanner, former chair-
man of the Republican state commit-
tee, said that in the past 20 years the
number of state departments had in-
creased from 39 to 189, with a cor-
responding budget increase of \$12,-
000,000 to \$117,000,000. In the same
period while the population had in-
creased 53 per cent, the tax rate had
increased 634 per cent.

"The great problem here is not Bol-
shevism, but taxation. Bolshevism will
take care of itself, but taxation will be
with you always."

The experience of the state of Illi-
nois, he said, had shown that the
consolidation of the various depart-
ments of the state government under
a centralized control had reduced ex-
penses and similar economies could be
effected in New York by the adoption
of such a system.

Mr. Tanner was not in favor of ex-
tending the official term of governor
and lieutenant governor from two to
four years.

Consolidation of the existing 189 de-
partments into 19 divisions proposed
in one of the bills under discussion,
was approved by Dwight Marvin, edi-
tor of the Troy Record and represent-
ing the Troy chamber of commerce.

"The present state of government
is a good deal like boarding house
bush," said he. "You can put anything
in it. There should be a system of
hire and fire; a political system
where it would be more important to
do the job than to get a job."

CLAIM BRUSH SISTERS WERE LEGAL PATIENTS

Contention That 10-Day Com-
mitment Was Exercised 10
Years Is Positively Denied

New York, March 23.—The legality
of a commitment on which Ada M.
and Phoebe Brush, aged sisters, were
confined in the Kings Park state hos-
pital for the insane for the past 10
years was defended today in a state-
ment given out by the state hospital
commission. It said the women were
"both legally and properly committed
after every requirement of law had
been complied with."

The women were released from the
hospital last week and immediately
made charges that they had been il-
legally held for 10 years on a com-
mitment originally intended to detain
them but 10 days. The hospital com-
mission's statement endorsing the atti-
tude of the Kings Park Institution
says the women were temporarily
committed upon the emergency com-
mitment form which later was made
permanent. In 1911 they were taken
from the institution on a writ of
habeas corpus and were found to be
suffering from paranoia and re-com-
mitted. They were seen from time to
time by medical inspectors, accord-
ing to the statement and upon each
occasion it was decided they were still
suffering from the same disease.

SPAIN HAS RAID STRIKE

Madrid, Spain, March 23. — A gen-
eral strike on the railroads of Spain,
affecting every line in the country,
went into effect at noon today. The
cabinet ministers have called into
service the railroad regiments, how-
ever, and with the assistance of mem-
bers of voluntary workers from other
departments, hope to be able to main-
tain the full schedule of mail and ex-
press trains in every direction.

MORE POPULATION STATISTICS

Washington, March 23.—Population
statistics for 1920, announced by the
census bureau, included: Amsterdam,
N. Y., 23,324, an increase of 2,257 or
9.7 per cent over 1910.

Glens Falls, N. Y., 16,791, increase
1,358 or 8.1 per cent.

As the only cure. Tenants, leaning
forward, waved disposed notices
under his nose and charged he had
given them to 45 families because
they refused to meet a rate of \$22
to \$24. A committee member charged
this landlord had appeared before
Mayor Hyland's committee on rent
profligate, charged with this offense
and said that such action was
driving the poor to Bolshevism.

DAYLIGHT SAVING REPEAL IS LOST

Law Is Expected to Materially
Affect Conditions in Stock
and Trade Markets

EFFECTIVE SATURDAY

Public Is Asked to Submit "Cheer-
fully to Any Inconveniences"
That May Result

New York, March 23. — Operation
of the daylight saving law which
becomes effective at 2 a. m., next Sat-
urday through the failure of the legis-
lature today to repeal the bill is ex-
pected to materially affect business
hours and conditions in stock and
trade markets throughout the country.
Officials of the stock, cotton and other
exchanges here, together with all
local banks announced that they would
operate under the new time schedule
which makes "official New York time"
two hours ahead of Chicago, instead
of one, with a corresponding increase
over the standard time in other sec-
tions of the country. New York stock
and trade markets pointed out that
they are required by law to adopt the
official state time. This will involve a
rearrangement of leased wire sched-
ules at outside points, they said. Local
officials were without information as to
whether the Philadelphia and Boston
exchanges, which usually follow the
lead of New York on the question of
business hours and holiday, would
set their clocks ahead to conform to
New York time.

Some confusion is expected to re-
sult here by reason of the fact that
the railroad time tables will continue
to be based on standard time. Sched-
ules of the suburban and branch line
trains of the New York Central, New
York, New Haven and Hartford rail-
roads, which enter this city from
points not affected by the change in
time have been advanced one hour to
meet the requirements of the com-
muting public. Other railroads car-
rying commuters here are expected to
take similar action. Banks, churches,
theaters, traction companies, in fact
virtually all activities in New York
will operate on "summer time." Wil-
liam F. Morgan, president of the Mer-
chants' association of New York, re-
presenting more than 6,000 business
houses, stores and banks here, tonight
issued an appeal to the people of the
city for a general observance of the
law. They are asked to submit "cheer-
fully to any inconvenience that the ex-
isting confusion may cause until the
time schedules have been worked out."

GEORGES CARPENTIER HERE

Doubt as to Possibilities of Bout with
Dempsey Rife in Sporting Circles

New York, March 23. — The arrival
here today of Georges Carpentier,
European heavyweight champion, caused
the proposed match with Jack
Dempsey to flame afresh, but after
several hours of mysterious confer-
ences with various promoters, there
was little evidence to indicate that the
French pugilist would meet the
world's title holder in the near future.
The abandonment with which Carpen-
tier and his manager, Descamps, signed
contracts recently here and abroad,
stunned American promoters and left
them in doubt as to the possibility of
bringing Carpentier and Dempsey to-
gether within the next 15 months. A
close analysis of the situation discloses
the fact that the Frenchman was
under contract with three different
promoters, which bound him to per-
form certain services, which are closely
related and which prevent
him from actually boxing Dempsey
for some months, provided he is so
inclined.

BOOST NON-POLITICAL CAMPAIGN

Washington, March 23.—Organized
labor's non-partisan political cam-
paign has gone under way "with
tremendous enthusiasm" as the re-
sult of meetings held last night
throughout the country by local uni-
ons, according to a statement from
American Federation of Labor head-
quarters. Lectures were sent today
by President Samuel Gompers, Sec-
retary Frank Morrison, and James
O'Connell, compelling the campaign
executive committee, to all locals for
the cementing of the campaign or-
ganization into an efficiently function-
ing campaign.

Insurgents Capture Schleswig

Berlin, March 23.—Insurgents have
captured the isolated town of Schles-
wig, capital of the province of Schles-
wig-Holstein, according to a dispatch
received here. A number of officers
of a cavalry regiment were taken
prisoners. A so-called committee of
action is in control of Schleswig, the
dispatch says.

A detachment of royal brigades on
their way to Hakenrade, 10 miles
southeast of Schleswig, was held by
the citizens guard but a truce was es-
tablished. The area here will be
allowed to function.

MILLIONS FOR CANAL WORK

Albany, March 23.—Five bills in-
troduced in the legislature by Henry
M. Sage, chairman of the finance com-
mittee, appropriating or re-appropri-
ating money for canal improve-
ments and terminal construction
were signed by Governor Smith today.
The five bills are: a total of \$1,-

Wood Leads Primaries Held in South Dakota

Sioux Falls, S. D., March 23.—
The contest between Governor Leonard
Wood, Senator Hiram Johnson,
Governor Frank O. Lowden of Illi-
nois, and Senator Miles Poindexter
for the Republican Presidential en-
dorsement at the South Dakota pri-
mary election today became one of
fluctuating successes tonight, so far
as the first three were concerned.
Returns from 234 out of 1,740 pre-
cincts showed Wood leading Lowden
by 1,323 votes, and Johnson
closely pressing the Illinois gov-
ernor for second place. The re-
turns showed only scattered votes
for Poindexter.

BREWERS AID QUIZ CUVILLIER ADMITS

Anderson Denying Charging As-
sembly With Dishonesty Tells
of Assemblyman's Confession

New York, March 23. — William H.
Anderson, state superintendent of the
Anti-Saloon league, issued a state-
ment tonight declaring that he had
made "no charge of dishonesty against
the assembly or any member thereof."
"I deliberately set out to goad our
chief opponents into making a public
exhibition of themselves and their
open assaults upon the constitution,"
said Mr. Anderson. "Assemblyman
Cuvillier came through with a state-
ment that the chief attorney for the
brewers of America was involved in
raising a fund to push the investiga-
tion of the Anti-Saloon league, though
he previously had denied that it was
a wet and dry measure."

Amplifying his denial that charges
of dishonesty had been made by him
against the assembly, Mr. Anderson
said:

"I never shall apologize to any pro-
briety member for telling of his prob-
riety activities. I can afford to stay
in jail about as long as the assembly
can afford to keep me there for that
offense."

INFER FEDERAL AGENTS MURDERED LORD MAYOR

Sinn Fein Expounds Monstrous
Theory as Solution of MacCur-
tain's Mysterious Death

London, March 23. — The Dublin
correspondent of the London Times
describes the situation in Ireland in
the darkest colors. He says the out-
look is serious. Conditions in the west
and south are extremely grave. The
condition, bad last week, is now defi-
nitely worse. Public feeling is so in-
flamed as to become quite irrational.

The correspondent says the Sinn
Fein ask the country to accept the
monstrous theory that Lord Mayor
MacCurtain was killed by actual
agents of the government. It describes
the overnight riot in Dublin as an-
other dangerous signal and says it is im-
possible to get an impartial account
of the uprising, the popular versions
being that the soldiers provoked and
assaulted civilians.

The correspondent learns that the
soldiers were stoned by a crowd be-
cause they left a theatre singing the
national anthem as a protest against
the failure of the theatre orchestra to
play it. He adds that public opinion
throughout the country is exasperated
by the wild charges against the police
and soldiers, who would hardly be hu-
man if they did not resent the cam-
paign of murder and calumny.

MAGEE HINTS REVELATIONS OF SENSATIONAL CHARACTER

Cincinnati, O., March 23.—Revela-
tions of a sensational nature are hint-
ed at an announcement made here to-
day by Lee Magee, former Cincinnati
and Chicago National league ball play-
er. "On Saturday," said Magee, "I shall
make public the charges on which the
National league bases its action in
barring me from its ranks. I shall
show the documents both in my favor
and against me and let the public
judge whether I have been fairly
treated. I'll add to this, I'll going to
burn my bridges and then jump off
the ruins. If I am barred I'll take
quite a few noted people with me. I'll
show up some people for tricks turned
over since 1906 and there'll be more
music in the baseball world."

Thousand Communists Killed

Koburg, Saxony, March 23.—A heavy
defeat has been inflicted on the communist forces, who
left more than 1,000 killed, accord-
ing to the Reichwehr commander in
this region. The Reichwehr has 19
killed and 75 wounded, while 3 are
missing.

ditions in the Dutch provinces, where
initially every town is in the hands
of the workmen, rapidly are ap-
proaching a situation of the condi-
tions prevailing in Soviet Russia.

DALY WELCOMES THOROUGH PROBE

"Maliciously Untrue" Declares
Associated Industries Secretary
Answering Women's Charges

CLASHES ARE FREQUENT

"Lie" Is Passed Between Bernard
Nolan and James T. Holland
at "Welfare" Hearing

Albany, March 23.—Disorder, which
for a time threatened to break up
the session, marked the hearing today
on the women's "welfare" legislation be-
fore the senate and assembly commit-
tees on labor and industry.

More than a dozen women's bills
were before the committees, but the
fight centered on the Cortile-Roose-
velt minimum wage and the Lowman-
Simpson eight-hour day for women
measures.

Representatives of the Equal Op-
portunity league of New York and As-
sociated Industries of New York State
clashed with speakers for the wom-
en's joint legislative committee, New
York State League of Women Voters,
and scores of workers and others in
the state, who urged favorable action
by the committees. Organized labor
leaders, who also were heard at the
hearing, became so bitter that at one
time the lie was passed between Ber-
nard Nolan, who said he was presi-
dent of a New York City Pressmen's
union, and James T. Holland, presi-
dent of the State Federation of Labor,
when Holland charged that Nolan had
been expelled from organized labor.

Daly Answers Charges

"It's a lie," shouted Nolan from a
corner of the senate chamber where
the hearing was held. The hearing was
interrupted when Mark A. Daly,
general secretary of the Associated
Industries of New York state who also
appeared in opposition to both mea-
sures, replied to charges made by the
League of Women Voters yesterday in
a report to Governor Smith, saying
they were "maliciously untrue."

"I would welcome an investigation
or inquiry that would fairly seek the
facts," he said.

Mrs. Mary F. Moore of Buffalo,
member of the league, said that she
"stood by the statement of the league
as given yesterday."

Speakers for the Equal Opportu-
nity league, who included Mrs. Ella M.
Sherrin, Mrs. Nora Stanton, Blatch
Barney, Miss Beatrice Brown, Mrs.
Ada R. Wolfe, and Mrs. Marget Kerr
Pill, opposed the minimum wage bill
on the ground that "the minimum
would be the maximum" and urged
against reporting the eight-hour bill
because it would "legislate" solely
against women and was "unconstitu-
tional."

"The men who have come here to
urge passage of the eight-hour day,"
said Mrs. Wolfe, "do not want this
legislature to pass an eight-hour day
for men. Why then, should you put
a law on the statute books calling for
an eight-hour day for women?"

Charges Un-Americanism

Proponents of the two bills were
led by Mrs. Mary F. Drier of New
York, and included Miss Clara P.
Mortenson, secretary to the minimum
wage commission for the District of
Columbia; Miss Frances Perkins, state
industrial commissioner; Miss Rose
Schneiderman, president of the New
York Women's Trade Union league;
and Mrs. Betty Hawley of Buffalo.

Miss Perkins declared that the in-
dustrial commission endorsed the
principle of the minimum wage bill
because it would stabilize industry
and have a tendency to produce pro-
duction.

Charges that the minimum wage
bill were un-American and socialist
were denied by supporters of the
measure, who asserted that the
bill "would advance Americanism
throughout the state."

Dr. Abram Lefkowitz of the Teach-
ers' union of New York city, said his
union was strongly in favor of both
measures, while Mr. Holland declared
that every local in the state Federa-
tion of Labor had approved the bills
and called upon the committees to re-
port more favorably.

Consider Charges a "Joke"

Syracuse, March 23.—The New
York league for Americanism, in a
statement issued today, characterized
as a "joke" the charge made by the
New York State League of Women
Voters that "it maintains a lobby
which exercises its powerful and per-
nicious influence at the state capital in
Albany. The statement issued by Dr.
D. Babcock says a part:

"The league has been openly oppo-
sed to compulsory health insurance
since the organization was formed last
year. It has now taken a position
either for or against the other so-called
welfare measures—the minimum
wage and eight-hour day bills.

"Talk of a campaign fund of \$100,-
000 to \$200,000 is utterly absurd and
a charge that a fund of \$1,000,000
was raised at Detroit to oppose such
measures as compulsory health insur-
ance is too ridiculous to merit con-
sideration."

Hoffman Denies Participation

Newark, N. J., March 23.—Dr.
Frederick L. Hoffman, chairman of
the Presidential Light Insurance com-
pany, named as one of the opponents
of "welfare legislation" in a report

BLISS DENIES ACTS CRITICISED BY SIMS

"The Truth Is Exactly the Re-
verse" General Writes Sec-
retary Baker

Washington, March 23. — The con-
troversy started by Rear Admiral Sims'
criticism of the navy department's
conduct of its war activities, brought
tonight the entry of the war depart-
ment to deny some of the admiral's
statements regarding the land forces.
General Tasker H. Bliss, American
representative in the supreme war
council, not only denied categorically
that he had recommended leading
of United States troops with foreign
armies as testified by Admiral Sims,
but declared "the truth is exactly the
reverse."

General Bliss made his denial in a
letter to Secretary Baker, who trans-
mitted it together with a copy of the
original order assigning General Persh-
ing to command the forces over-
seas, to Secretary Daniels and he in-
turn sent both on to Chairman Hall
of the senate naval sub committee at
the same time making all the corre-
spondence public.

"Not only at no time did I make
any recommendation of the American
troops with the British army," Gen-
eral Bliss said, "but the truth is the
reverse. The only time I ever came
in contact with Admiral Sims in
Europe was while I was in London
with the American commission (the
so-called house commission) between
the eighth and twenty-second of No-
vember, 1917. During that entire
time the idea of brigading or amalga-
mating American troops with foreign
armies never entered the head of any
one, nor did I ever make such a sug-
gestion, much less a recommendation."

COLBY WOULD PUBLISH CONFIRMATION RECORD

Secretary Asks Foreign Relations
Committee to Make Public
Its Findings

Washington, March 23. — Secretary
Colby today wrote Senator Lodge,
chairman of the senate foreign rela-
tions committee, asking that the evi-
dence taken by the committee on the
subject of his confirmation, be made
public, if it accorded with the usual
practice.

The hundreds of passports, which
have been piling up while there was
no secretary of state to sign them, will
now be issued more quickly than had
been hoped as the result of prear-
rangements made by a member of the
passport control division. Forseeing
the jam, he obtained Secretary Col-
by's signature and had hundreds of
passports prepared with the facsimile
signature ready to be issued the
moment the new secretary took office.
Consequently the mass of accumulated
passports began to move promptly to-
day and it is expected there will be
a minimum of inconvenience and de-
lay to business men and tourists.

ARREST MILITARY LEADER IN RECENT KAPP REVOLT

Berlin, March 23. — Major Gen-
eral von Luttwitz, the military com-
mander of the Kapp revolt, has been
placed under arrest. It is officially
announced. Admiral von Trotha, chief
of the admiralty, has also been ar-
rested.

There is no definite news of Kapp's
whereabouts. It is supposed that he
is on his estate in East Prussia.

Berlin, March 23.—President Ebert
today declared the abolition of drum-
head courtmartial in Greater Berlin,
expressing confidence that order would
not be further disturbed.

Order has not yet been reestablished
at Nordhausen, Saxony, and the
situation at Sonderhausen and Koburg
is worse. The demand for disarmament
of volunteers in these places having
been rejected, the extremists have
armed themselves.

MINERS THREATEN WALKOUT

London, March 23.—Another strike
of miners appeared tonight to be in
prospect. After the recent trade uni-
on, congress rejected the proposal of
direct action to attain nationalization
of the mines, the miners made a
demand for an increase of 15 shillings
weekly in wages in order to bring in-
dependent pressure on the govern-
ment. Negotiations with the
Miners' Federation have resulted in the
denial of the miners being rejected.

More Casualties at Leipzig

Leipzig, March 23. — The deaths
in the fighting in this city between
communists and troops are now put
at 100 on both sides. Lieutenant
Ruehner, the well known German
aviator, who was credited with 49
victories in the air during the war,
has shot down and killed during the
fighting.

With G. Arthur Smith yesterday by
the New York State League of Women
Voters, he said in a statement today
that he had no connection with the
leaders of the alleged movement.

"I have never been associated with
the persons mentioned in the report
as it appears in the newspapers," said
Dr. Hoffman, "nor have I ever been
a member of the Associated Manu-
facturers and Merchants of New York

ABANDONS COAL PRICE CONTROL

President Warns Against Prof-
iteering in Approving Agree-
ment Effective April 1

REPORTS MADE PUBLIC

Fuel Situation So Far as Bitu-
minous Is Concerned Reverts to
Status Prior to November

Washington, March 23. — With a
warning against profiteering, Presi-
dent Wilson today ordered abandon-
ment of control over bituminous coal
prices and asked miners and opera-
tors to negotiate a new working agree-
ment on the basis of the majority re-
port of the coal strike settlement
commission.

The President orders termination
of price control on April 1, when the
new working agreement becomes ef-
fective. This will permit at least
partial absorption in coal prices of
increase in miners' wages, established
at 27 percent by the commission's
majority report. The increase in
wages, the commission estimated, will
entail an added annual cost of \$200,-
000,000 and includes the 14 percent
increase awarded the miners in set-
tling the recent strike. The opera-
tors, however, were reminded by the
President that unreasonable prices
must not result from the relinquish-
ment of price control and the addition
of increased wages to their expenses.

The date of the joint conference to
formulate a new wage agreement had
not been set tonight. John L. Lewis,
president of the United Mine Workers
of America, while awaiting a confer-
ence of officers of the union on the
matter, said the miners were ready
and willing to participate in a meet-
ing with the operators.

The majority and minority reports
of the coal commission also were made
public at the White House and both
were

The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vicks' Vapo-Rub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vicks' Vapo-Rub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

DULL INTERVALS MARK DAY'S STOCK SESSION

General Motors Again Star Performer, Rising From 371 to 401 in Final Hour

New York, March 23.—Trading on the stock exchange was marked by intervals of dullness and uncertainty, contrasting with the feverish activity and irregularly higher levels of the nervous session. General Motors was again the star performer rising from its early low of 371 to 401 in the final hour and closing within easy range on its maximum at a net gain of 26 points. Stutz motor rose 20 points to the new high record of 245 and Crucible Steel and Baldwin Locomotive at advances of 5.2.

Occasional sprits were displayed by other motors and allied specialties, also equipments, tobaccos and miscellaneous shares, but this was neutralized by pressure against oils, copper and leathers and minor issues of no especial description. Considerable criticism was leveled against the further operation of pools in the more speculative shares. This feeling, together with the unsettled state of foreign exchange, combined to encourage selling pressure.

British remittances were steady to firm, but French and Italian rates weakened.

The money market was not visibly disturbed, despite heavy withdrawals of government deposits.

Some of the Liberty issues were inclined to ease, but the general bond market, including standard rails and industrials, was steady at nominal changes.

Old U. S. bonds were unaltered on call.

Oh!
Such Pain!

Rome, N. Y. — "My kidneys bothered me for some time. I used to have shooting pains through my shoulders. For weeks at a time I was not without pain. I also suffered with nervous spells and appeared to have heart trouble. My bladder seemed to be weak. I was unable to sleep. I was disturbed seven and even eight times during a night. This caused me to lose much sleep and made me feel quite miserable. Recently Dr. Pierce's Anuric (anti-uric acid) Tablets were recommended to me and I decided to try them. The relief obtained was really marvelous. For days I haven't had a pain in my body anywhere my heart and nerves seem to be stronger and I no longer have any weakness of the bladder. What Anuric has done for me I feel certain it will do for others similarly afflicted."

"It is with pleasure that I make this statement and hope that through it others will get the relief that I have obtained through Anuric." — O'BONJENKS, 307 Bissell Ave.

Ithaca, N. Y. — "This is to certify that I have used Dr. Pierce's Anuric Tablets and have not only been helped but entirely cured of my trouble and I feel greatly indebted to Dr. Pierce for the help I have received. I can cheerfully recommend Anuric to any one who is troubled with an excess of uric acid in the system." — GEO. S. BROWN, 209 College Ave.

Brooklyn, N. Y. — "I took one package of Dr. Pierce's Anuric Tablets for lame back and weak kidneys and was much benefited. My back commenced to get better soon after starting to use the Tablets. I do not have to walk doubled over as I did before taking them. 'Anuric' is the best remedy I have ever taken for what it is intended for." — A. G. DRAKE, Route 1, Box 76.

MOTHERHOOD WOMAN'S RIGHT

How Lydia E. Pinkham's Vegetable Compound Helps to Make Women Normal.

Washington, Ind. — "I was in such a condition that I never expected to have children, and my aunt advised me to take Lydia E. Pinkham's Vegetable Compound. It improved my health and restored a normal condition of my system so that I now have a fine baby. Until she was about a year old I was very nervous, and all the time thinking something terrible was going to happen. If I heard any one coming, my heart would beat fast and I would be all over a shiver. So I took the Vegetable Compound again and it helped me wonderfully. You may publish my letter, as the medicine is surely great." — Mrs. IYA BANYA, R. R. No. 1, Box 21, Washington, Ind.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published.

In many other homes, once children, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Schenectady-East Worcester Road Open.

Worcester, March 23. — The road is open from here to East Worcester for autos and cars have been to both towns today. A gang of men with team and tractor and with plows and shovels did considerable work in opening the banks between this village and the water trough at the Stever farm.

DELHI-BLOOMVILLE ROAD.

Venturesome Automobilists Have Difficulty in Breaking Through Drifts. — Bloomville, March 23. — The state road between here and Delhi, which has been impassable for cars for nearly three months, was opened up a few days ago and yesterday several Bloomville car owners and others tried it out. Jesse Kimball and party of friends in his touring car got stalled in a big drift near Fitch Bridge and gave up the attempt to reach the county seat, turned about and motored homeward. Wyatt Frisbie of East Delhi also stalled his car in the same section and considerable shoveling was necessary before he could proceed. That the drifts are softening and fading away and soon sleighing on the state road will be a thing of the past.

Teaching as Substitute.

Miss Ella Lamb is teaching in the Rose district across the river as substitute for a few weeks for Miss Elizabeth Hong, who has been ill with influenza.

Mrs. Buckingham Slightly Better.

Word was received here Saturday that Mrs. Jennie Buckingham, daughter of J. N. Dayton of this village, who is critically ill of acute Bright's disease at the Buckingham home in Hartsfield, was slightly better. The disease affects her eyes, making her almost blind.

Notes.

Fred Mills has returned from Hobart, where he was working in the station for a few weeks, substituting for an employee who was ill, and is again on duty as assistant in the station here. — Miss Isabel Rose, who was attending teachers' training class at Stamford, was called home by the sickness of her sister, Dorothy, due

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend for it is almost every case at hand excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and the testimony of those who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that so many people claim that it cures almost every kind of overcoming kidney and bladder ailments, corrects uric acid, troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by Parole Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

7 Per Cent Participating Preferred Stock (this issue)	2,000,000	2,000,000

We call your attention to a letter from Mr. G. N. Allen, Chairman of the Company's Board of Directors, which is summarized as follows:

BUSINESS: The Oneida Community was established in 1848 and was incorporated as the Oneida Community, Limited, in 1880. The business of the company has shown continuous development. Its principal products today are silver plated tableware and animal traps.

As a result of nearly twenty years' intensive and very successful advertising and merchandising efforts, the Company's principal line of silverware, COMMUNITY PLATE, has become a household word throughout the country.

The manufacture of animal traps is the company's oldest business, and it has for years manufactured over three-quarters of all the game traps produced in America. The present high price of furs has greatly increased the demand for the company's traps.

PURPOSE OF THIS ISSUE: The proceeds will be used to provide additional working capital made necessary by the recent growth of the company.

PREFERENCES: This preferred Stock is entitled to receive regularly 7 per cent cumulative dividends, payable quarterly in preference to any dividend on the Common Stock, and will pay additional dividends at the rate of 1 per cent a year—making a total of 8 per cent—whenever the profits for the preceding year, available for common dividends, equal or exceed 12 per cent of the total par value of the outstanding Common Stock and the surplus. Because of last year's favorable showing, this Preferred Stock will bear the 8 per cent rate for the balance of this year, and had it been outstanding, 8 per cent dividends would have been paid on same for six of the past ten years.

If called for redemption, this stock is entitled to receive \$30.00 per share, and on any distribution of capital assets, the stock shall be entitled to receive an amount equal to its par value and any unpaid dividends accumulated thereon before any distribution shall be made to the Common Stock.

ASSETS: Had the present financing been completed on the statement date (January 31, 1929) the net current assets of the company would have been \$4,162,070 and its net tangible assets would have been \$6,587,530, which would show net current assets of \$2,425 and net tangible assets of \$2,424 for each \$25.00 share of this Preferred Stock.

EARNINGS: During the last ten years, the average annual net earnings after the payment of dividends, taxes, interest and depreciation, were \$337,147 or over 2.4-10 times the dividend requirements of this issue. The average annual net earnings for the past five years were \$467,865 or over 3.1-3 times the dividend requirements of this issue. For the year 1929 net earnings were \$531,673 or over 4 times the dividend.

CURRENT COMMENT.

"Did you see the Northern Lights?" was the general inquiry yesterday. Practically everybody did, and all were delighted with the wonderful display, and not a few were amazed. But what the explanation of the phenomenon is nobody is apparently near knowing then was the scientist of two hundred years ago. That disturbances of telephone and telegraph wires occur at the same time is by many taken as evidence that it is a form of electricity. This may be true, or it may be evidence of some force of which both the wire and the electric current are manifestations.

In fact, despite long years of investigation and speculation, nobody knows just what electricity really is. It is told that a professor of science some scores of years ago asked of a student, "Mr. Blank, what is electricity?" The student, after some moments of puzzled silence, replied, "Really, professor, I cannot tell. I used to know, but have forgotten," to which the instructor's answer was, "It is unfortunate that the only man who ever knew has forgotten." It is an old story, but just as true now as it was last century.

A recent news item records the purchase of the New Berlin Telephone company by the Iroquois Public Service corporation of Syracuse. The Iroquois company is understood to be engaged in the development of the local telephone companies connected with the Bell system throughout the state, and it now controls all the telephone companies operated in a direct line through Herkimer county down the Unadilla valley and across Delaware county to Roscoe in Sullivan county, including the exchanges operated at Union, Walton and Downsville. There is no question that better service will result, but probably at a higher rate, as is indicated by the advance for the New Berlin exchange, notice of which has been filed with the Public Service commission. The advance, however, is contended not to be as great as that of salaries, material and everything else connected with the service, or in fact with advances in every other line of business, save perhaps railways, and the telegraph.

The gradual way in which the snow under the benignant influences of the solar ray, has disappeared, is a source of satisfaction to those who in this section of the state have for weeks felt a great deal of anxiety on account of the depth of snow, and who have feared the floods which it was apprehended might follow. Instead, however, of floods, the snow has quietly disappeared, and there does not now appear to be any likelihood of serious trouble, even though much snow still lingers in the woods. Few streams, if any, are as yet over their banks, and the direful prognostications of three weeks ago have given place to cheerful anticipations.

It is perhaps a lucky thing for Secretary Daniels that Admiral Sims fixes the charge of saying, "Don't let the British pull the wool over your eyes" upon Admiral Benson instead of the secretary Benson is a bluff old sea dog with inherited anti-British sentiments, and he will be forgiven because, in selecting Sims for command of the over-seas fleet, he placed duty above prejudice. At the same time it is not so easy to forgive Sims his earlier statement which quoted the remark but did not give the author. As a result many believed that it was made by Secretary Daniels. It was in fact a breach of confidence to reveal it at all, and, if revealed, it should have carried the name of the author with it from the first. It is greatly to be feared that Sims has let his prejudices against Daniels outrun his judgment and his discretion.

THE SNOWFALL FIGURES.

Weather Bureau Reports More Favorable Conditions—Many Roads Open.

The snowfall bulletin issued Tuesday from the United States weather bureau office in Binghamton says that the average depth of snow in the Binghamton district, which includes the Susquehanna river and its tributaries at and above that city, was 22 inches. The greater depth was 25 inches in Brookfield and the least was a trace in Binghamton. There were 17.5 inches reported in Cooperstown, 12 inches in Hartwick and Oneonta, 14 in Port Jervis and 20 in Kortright.

Road conditions are improving and the hard roads should, in general be open the motors by next week but going will be rough for some time. Dirt roads will be soft. The following are reported open: Binghamton-Windor-Deposit-Center Village; Binghamton-Whitney Point; Bainbridge-Unadilla; Elmira to Waterville; Aitona, Dryden; Unadilla, poor, especially state road; DeRuyter, "no roads"; Syracuse, poor, in some districts impassable with snow.

The critical period for river floods forecast on March 2nd is at hand. Ice still holds at Bainbridge and in Tionghongia and upper Chenango rivers.

Oneonta Needs Y. W. C. A.

Editor Star—

In a recent issue of The Star, I read with pleasure, the result of the debate at the High school on the Y. W. C. A. situation in Oneonta.

There is no greater necessity in a city than a Y. W. C. A. Especially is this true of Oneonta, the seat of the State Normal school, which brings girls from every state and from cities, where they have the benefit of a Y. W.

There are hundreds of girls and women of your city, who do not know the advantages and pleasures. I was one of those hundreds until I came to Washington.

Here are a few facts concerning our association in this city, which may be of interest to Star readers.

There are in Washington in government service, approximately 80,000 girls and women from all over the United States, other business and professions, 15,000 women, many of whom have no homes in the city. 700 girls working in stores, who are under 18 years of age.

At present, the association is reaching thousands of girls through the following lines:

Swimming to 1,500 girls a month. The Y. W. pool is the only one exclusively for women in the city.

Exercise to 600 girls a month in the gymnasium.

Weekly play nights, of games, movies and sings.

Weekly suppers, by states 3,927 girls have been sent to clean, attractive, permanent homes this year.

854 transients have been accommodated through the same office.

2,000 girls are served every day in two cafeterias.

800 girls have taken advantage of the educational opportunities offered in all lines.

400 girls have received inspiration and help from real Bible study classes.

Our association sends our own secretary to Buenos Ayres, South America. When this secretary first went to South America, she began her work in a third floor room of a building with no elevator and today plans are being laid for a magnificent building to be erected, the first Y. W. C. A. in South America.

If only the people of Oneonta will give their time, thought, influence, prayer and money to this wonderful project, they will surely be repaid for the benefits received.

Find Birds Appreciative.

Editor—

We have read with pleasure that many people have been feeding the birds this winter. We have fed them for nearly three months, and have been amply repaid for our trouble by the amusement they have given us. When they are not eating at our feeding station, they are working for the larvae and eggs of insects in the fruit and shade trees near the house.

We first attracted the chickadees by tying pieces of suet in the trees. Gradually we brought them nearer the house, and later, swung from the porch roof a shallow box to hold crumbs, grain, and cracked hickory nuts. The latter proved the favorite food of nearly all our boarders, for they have eaten more than half a bushel.

Downy woodpeckers and white-breasted nuthatches soon followed the chickadees to the feeding station. These, with one red-breasted nuthatch continue to be our most frequent visitors, but occasionally we have juncos, blue jays, tree sparrows, and English sparrows. The jays are very shy, but will eat anything and everything they can find.

The chickadees and the red-breasted nuthatch have become very tame. When they are hungry they flutter about the windows until they are fed. The instant we open the door, they are in our hands, looking for nuts and will even take them from our lips. They do not mind sitting for

MISS EVANGELINE C. BOOTH,

Commander of the Salvation Army in the United States.

WITH the \$14,000,000 fund generously contributed by the country to the Salvation Army last May all but exhausted through the Army's unparalleled year of activities and service throughout the country, Commander Miss Booth is now marshaling her forces for the organization's second nationwide Home Service Appeal to be held May 10 to 20. "It makes me extremely happy to report, even before the full statistics of the year's work are in hand," the Commander stated in New York recently, "that never before in the history of the organization in this country has the Salvation Army been able to ac-

complish so much for the poor, the distressed, the sick, the unfortunate and the erring.

"All this is because of the magnificent way America has supported our efforts. We are deeply thankful to God and country for the opportunities of Christian and humanitarian service that have been afforded us during the last few months. Very shortly, now, we shall give an accounting of our trustworthiness, and soon thereafter we plan to go to the country again for the encouragement and funds with which to maintain our many vital activities throughout another twelvemonth."

their photographs and will sometimes consent to be petted.

At this time of year we frequently hear a soft clear high-pitched whistled "phoe-be." I do not think many people know that it is really made by the chickadee. The phoebe has not yet put in an appearance but when she comes we shall see that her quick, jerky manner of speech is very different from the drawing notes of the chickadee.

Very truly yours,

Dentists at Binghamton.

The fifty-second annual meeting of the Sixth District Dental Society of the state of New York will be held Thursday, Friday and Saturday at Binghamton, in the Bennett hotel. An excellent program of talks on dental work has been arranged and clinics will be held on all three days. Many prominent dentists will be present from various parts of the state, and authorities from among them will discuss various phases of dental work. Those who will attend from Oneonta are Dr. W. J. LeSuer, Dr. Leon H. Wayman and Dr. C. F. Baylis. On Thursday Dr. Baylis will discuss a paper by F. M. Willis of Utica on the subject, "The Advantages of Pictures in Root Canal Work."

Health of Rural vs. Urban Children Contrasted—How to Bring Up the Country Standard.

An article in the New York Times of Feb. 23 gave some figures concerning the relative health of country children as compared with city children, that cannot help but make people think and seek a remedy. Dr. Vincent, president of the Rockefeller Foundation, drawing his conclusions from a recent survey in Louisiana, stated that 52 per cent of rural children are suffering from malnutrition as against 2 1/2 per cent urban; that 59 per cent are anemic as against 20 per cent of the city children.

What may alleviate this situation? Serving a hot dish, as for instance cocoa or soup, with every rural school lunch would do much to increase the health and efficiency of country children, seeing that every growing child has its proper amount of milk, one quart of milk a day, or at the very least a pint would help to eliminate any tendency toward malnutrition. Otsego county is one of the leading dairy counties and should be one of the foremost advocates for the use of sufficient milk and butter in the homes. As is often the case, it seems that education needs to begin at home, so that in the years to come every rural school in the county may serve a hot dish at the school lunch and every child receive its due supply of milk. Then, only, will rural children be able to compete against city children and hold the banner for health and efficiency.

ATHLETIC MEET IN MAY.

Oneonta High School to Enter Interscholastic Contests.

An all-round physical ability test for boys and girls in the public schools of New York state will be conducted in May in the form of an interscholastic athletic meet in which probably a half million contestants will be entered. The purpose of this test is to grade the students of all the public schools in the grades above the sixth and including the high school in fundamental athletics, that is, running, jumping, and chinning or pull-ups for boys; and running, catching and throwing for girls. These events are standard and have been used for recreation and class work, but the plan now under way under the direction of the physical education staff of the Education department provides a way to score all individuals, compute the standing of the schools, the net score for the city, town or school district, and to compare the results.

The Oneonta High school will enter this interscholastic athletic meet under the direction of H. T. Taylor, physical training supervisor, and will undoubtedly make an excellent showing. Plans are now being made for the event and work will be started soon.

WHEN 'THE HERALD' WAS YOUNG

Some of the Things Recorded Sixty-Two Years Ago in Oneonta's Oldest Newspaper.

A dozen or more consecutive copies of The Oneonta Herald printed in the last month of the year 1857 and the two first months of 1858 were brought to this office a few days ago by C. C. Hanes of East End and through his courtesy were left for examination. The papers originally belonged to John Beams, who was a grandfather of Mrs. Hanes, and they were found in an investigation of the attic treasures of the homestead. A perusal of the local pages of some of them was of interest to the writer and doubtless will be to not a few readers.

In the county house at Phoenix Mills, according to the report of the committee of the board of supervisors, of which Jared Goodyear was chairman, the total expense for the support of paupers during the preceding fiscal year was \$2,310.68, and the number of weeks' board was 5,373. The total expense of maintenance of the institution was \$4,966, which would make the entire expense of maintenance something like 90 cents per week for inmate. Truly, these were the days of low prices.

In the same issue of The Herald, that of December 2, the editor makes announcement that "wood, potatoes, apples, butter, buckwheat and most all kinds of country produce will be taken on subscription." Also in the same number it is noted that the editor went turkeyless to dinner on Thanksgiving day, but that the omission could be made good by anybody who desired on Christmas. As a perusal of the issue for the week following Christmas does not reveal an editorial card of thanks, it does not appear that the hint was taken.

Another item smacks of the olden time, when gummed envelopes were a thing unknown. Readers were admonished not to seal letters with wax if they are intended for California via Panama, since the heat of the isthmus dissolves the wax and sticks the letters together, destroying the addresses. Also, referring to one of the dreams of Oneonta which came true, the issue of January 13 states that the Albany & Susquehanna railroad is a "sure thing," and that at a very early day.

And about the weather—just by way of contrast with 1920, read this, captioned "What a Winter!" the Herald of January 20 says: "We do not remember to have seen such a winter as the present. The last week has been as mild as October. Overcoats within the past few days have been burdensome to persons walking; and unless a change occurs soon the sun will have acquired too much power to permit much cold weather."

And among the wedding notices, the following, which refers to a couple well known for years in this city and later in Portlandville, where all their later years were spent:

"In this village, on the 12th inst., by Rev. E. C. Hodge, M. S. Cooke esq., to Miss Jennie Westcott, all of this village. (A liberal cash fee accompanied the above notice, for which the parties will accept our best wishes for their welfare and happiness, and that the fruits of their union may prove a blessing to both.)"

GOOD TIMES FOR CHILDREN.

Oneonta to Have Supervised Community Playground This Summer.

H. T. Taylor, physical training supervisor at the Oneonta High school, has been retained by the Board of Education to start and supervise a playground for the children in one of the city parks. A definite location has not yet been decided upon. Suitable apparatus will be installed and activities commenced immediately after school closes for the summer. Mr. Taylor has received assurance of support and cooperation by the city authorities.

Many simple pieces of apparatus, such as slides, swings, posts for volley ball, nets, etc., are being constructed in the manual training rooms at the High school by pupils. Other requisites, teeters, horizontal bars, supplies for indoor baseball, volley ball, etc., will be ordered from dealers in sporting supplies. The grounds will be supplied with everything necessary to outdoor amusements.

An indoor baseball diamond and a volley ball court will be laid out and teams will be organized among the children for these sports. It is hoped that a swimming pool will be constructed.

It has not yet been decided whether the grounds shall be located in Neahwa or in Wilber park or whether they will be permanent. All children will be welcomed and every possible arrangement made for their pleasure. Mr. Taylor will supervise activities. Oneonta is a rapidly growing city and the playground will be welcomed both by the children and as a civic improvement. Further information will be given in The Star in a later issue.

BIG LEAGUE TEAM COMING HERE

Last Game at High School Friday Night. When Binghamton Interstate Basket Ball Quintet Will Meet Wanderers.

What undoubtedly is the strongest basket ball team that has played in Oneonta for several years will come here next Friday night in the form of the Binghamton Interstate League quintet, which has agreed to meet the Wanderers in an exhibition game. The battle will take place in the High school gymnasium.

The Interstate league is composed of five teams, Binghamton, Endicott, Johnson City, Halstead and Susquehanna. There has been a hot contest in the league this winter, but as it now stands Binghamton is well in the lead. The Binghamton boys have played in many cities outside the league, at one time going as far west as Akron, Ohio, and their record has been a remarkable one, they winning a large percentage of the games played. It is expected that their line-up for Friday night will be Schultz and Kelly forwards, Murray center, and Glazier and Cornick guards. Glazier is a former Colliers boy and has many friends in Oneonta.

Manager Crouse of the Wanderers, who promises that the game will be the fastest ever seen on the O. H. S. court, is confident that his team will make a good showing, for the Wanderers have made a fine record this year, winning all games played except two both of these with Deposit and on the out-of-town court. The team will be organized for this battle and will be a combination of the best material that can be had in the city. "Stub" Parks, the star of the Oneonta High school teams five years ago, will probably be "among those present."

The big game is scheduled to commence at 8:15. There will be a preliminary contest, probably between the Normal and High school girls' teams. Manager Crouse will be at considerable expense in bringing the league team here and it is hoped that basket ball fans of the city will turn out in large numbers Friday night in order to show that they appreciate "big basket ball."

RESERVED SEATS AVAILABLE.

"Crops and Croppers" at High School Thursday and Friday Nights.

Reserved seat tickets for "Crops and Croppers," the annual High school play to be given Thursday and Friday evenings, may be secured, commencing this morning, at the Corner Bookstore. Those who purchased tickets from the students should exchange them for reserved seats, while persons who have not yet purchased the necessary pasteboards may secure them at the bookstore at any time, or until all seats have been sold.

Miss Cowan has been putting the Dramatic club through an intensive drill for the past three weeks and has developed the play "Crops and Croppers" beyond the usual high standard, while some extra scenery, used through the courtesy of Manager Moore of the Oneonta theatre, will add to the production, which is a comedy drama of the best kind. The members of the cast, all of whom have some ability along this line, have worked diligently to "put across" the play and "Crops and Croppers" will undoubtedly be the same success that preceding High school productions have been.

A Suggestion to Auto Owners.

If you left your battery on the car all winter, or even stored it in the cellar, it should have a freshening charge before it is called upon to do the work of starting the motor. No matter if it was in the best of condition when put away, it still needs attention, for an idle battery deteriorates. We suggest that you have your battery inspected in order that it will be on the job when you need it. We are prepared to render you this service. Will call for and deliver your battery. ONEONTA'S GREATEST SIN

Is Refusal to Accept Christ, Exchange-But Slocum Tells Congregation.

"Oneonta's greatest sin, as its refusal to accept Jesus Christ," declared Evangelist F. C. Slocum in a stirring sermon at the First Baptist church last evening. With the question "What Are You Going to Do With Christ?" as his main theme, Slocum made some rather startling statements regarding vice conditions in Oneonta and stated that he had facts with which to prove his assertions, even going so far as to say that he would give the names of persons running questionable resorts in this city to anyone asking him.

At last night's meeting, there were delegations present from the West End Baptist church and the Kayser silk mill. For the first time since the revival opened, no offering was collected, as the expenses of the campaign had been fully met at the close of the Sunday evening service. Miss Johnson rendered a pleasing solo at the service last night, and Prof. Arnold had charge of the general musical program.

A personal workers team was active at the service and afterward conferred with several in the congregation, who had signified their desire to enter the Christian life. Throughout the campaign, Evangelist Slocum has emphasized the great importance of personal work and the team is following out some of his suggestions in the work of winning souls with success.

There will be the usual 7:30 services at the church tonight. Delegations are expected to be present from the Young Men's Christian association and the Mothers' club of the First Baptist church. Mrs. Arnold will conduct a Bible study class for women again this afternoon at 3 o'clock.

Brakeman Hall "Holding His Own."

Brakeman Thomas D. Hall of this city, who is lying in the Albany hospital with a fractured skull he suffered in an accident last Saturday, was reported yesterday to be "holding his own." Although still in a serious condition, the prospects for his recovery are more favorable. His sister, Mrs. L. G. Barnes, of 5 Hubbell avenue, Oneonta, returned to Albany yesterday to be with him.

HELD FOR GRAND JURY

John Harrington and Martin Rich were caught here for Albany Police.

Two men recently arrested in Oneonta at the request of the Albany police have been held to await the action of the grand jury, according to the Albany papers.

John Harrington, 59 years old, who was captured here by Patrolman Simmons and was taken to Albany by Detective Ryan to answer a charge of assault on James Glass, a 14-year-old boy, was committed to jail and will be held for the grand jury. He was unable to furnish bail. Harrington, it is alleged, kidnapped the Glass boy from an orphan asylum last Thanksgiving day by representing himself to the management as the boy's uncle, and afterward took the boy to several cities for immoral purposes.

Martin Rich, 23 years old, arrested in Oneonta last month on a warrant charging him with robbery, first degree, was also held for the grand jury by Justice Brady. Rich, the warrant alleges, was one of three men who held up and robbed Anthony Tomaso of 319 Columbia street, Rensselaer, of \$100 on the night of January 23.

STATE INCOME TAX RETURNS.

Some Persons Have Not Filed Blanks — Next Wednesday Last Day.

Fred J. Graff, district director of the New York State Income Tax bureau, said yesterday in his office, 22 City National bank building, Utica, that there were some persons who had not as yet filed their income tax returns, taking advantage of the extension of time to March 31, granted by State Comptroller Travis.

The law requires that a return must be filed by every single person having a net income of \$1,000 and every married person if living with husband or wife, when the two have a net income of \$2,000.

"It should be borne in mind," said Mr. Graff, "that if the combined income of husband and wife is \$2,000, a return must be filed."

If you have not paid your New York state income tax, do so on or before March 31.

Persons who do not file their returns on or before that date are subject to the penalties imposed by the law.

Send your return with check or money order to the New York State Income Tax bureau, Utica, N. Y.

FIGHT FOLLOWS CARD GAME

Troy Negro Who Was Captured Through Efforts of Oneonta Police Says He Shot Companion in Self-Defense.

Last night's Binghamton Press has the following, relative to the disposition of Henry Brant, the Troy negro who, as told in yesterday's Star, was captured by the Binghamton police at the request of the Oneonta authorities, who succeeded in locating him: "Detectives from Troy arrived in this city this afternoon to take back Henry Brant, a negro, who was captured in this city yesterday by Detectives John J. Crawford and Jeremiah Donahue, and who, the authorities allege, is wanted in Troy on the charge of assault in the first degree. It is reported that he seriously wounded Jacob Steed of that city during a quarrel over a game of cards, on the night of March 15. Brant, according to his story, has wandered about the country since the shooting affair took place and arrived in this city last Friday night. He was captured by the detectives on Chenango street, near the viaduct, yesterday afternoon."

"According to the story told by Brant to the police, he and Steed had been playing cards with other negroes at a house in Troy. He said Steed suddenly got up from the table and accused him of stealing. A fight ensued in which Brant declares he was terribly beaten up and Steed threatened his life. Fearing that his life was in danger, another negro in the house helped him through back alleys to his home and he had no sooner reached the inside when he heard a knock at the back door and heard Steed's voice asking to let him in."

"Brant says he grabbed a shotgun which was in a corner of the room and started to go out another way, but when he was leaving the house, Steed started to run towards him and to protect himself, Brant said that he fired the gun in Steed's direction, then dropped in and ran for his life. From then on he said he wandered about the country from one town to another until Friday when he reached Binghamton and obtained a job as driver for a man in this city. He will probably be arraigned on the assault charge in Troy tomorrow morning."

HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause.

An Avicol tablet, placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thacker, R. F. D. 3, St. Paris, O., writes: "I had 99 chicks and they all died but 22. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers, or you can send 25c or 50c today for a package by mail postpaid. Write to: Dr. J. C. Duggar Co., 609 Columbia Bldg., Indianapolis, Ind.

Village Election Tomorrow.

While the village election held last week was hotly contested and feeling and temperature ran high, the Delhi people settled down to a normal condition right upon and instead of going about with knives in their boots and up their sleeves, they simply forked the issues and brought forth some very creditable poetry to commemorate the occasion of the village

election perhaps just what was to be expected in a community that prides itself on its artistic and literary atmosphere. By common consent, the people of Delhi village seem to agree; that if everybody would do as they ought to do, we would all do a great deal better than we do and they propose to proceed to do.

Local Mention.

Election commissioners: Arthur E. Connor of Walton was in town on Monday. George Wilson has accepted a position with Moore Bros. in Walton and will leave for that place this week. Mrs. Robert Blair spent Sunday at the home of her sister, Mrs. John Body.

We've Got Types in Goodyears in the Clincher Tire Sizes

30x3 1/2—30x3 1/2—31x4

A real tire for the Ford, Maxwell, Chevrolet, or any car that uses Clincher Tires.

The single cure Goodyear in the smooth or anti-skid tread stands way above any other tire in its own price field.

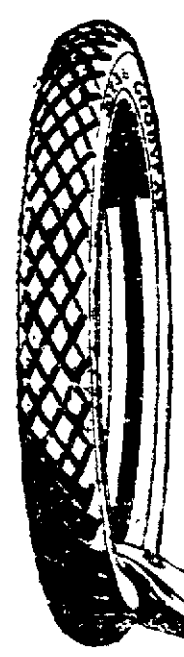

And the Goodyear two cure with the All-Weather Tread—at a little higher first cost—more than

lives up to its name as a bigger, better and stronger tire for the lighter cars.

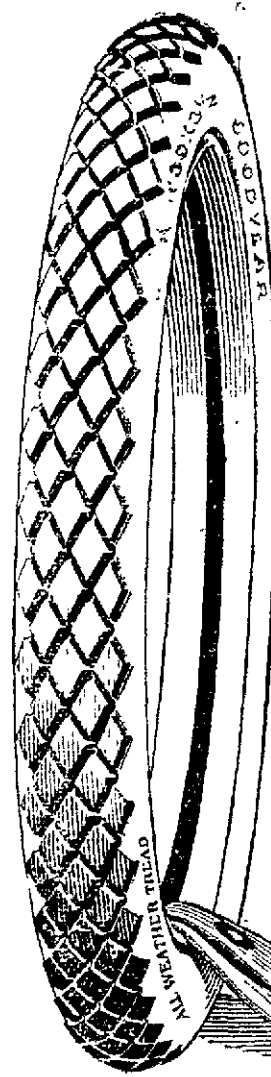

We've got both types in stock. With Regular or Heavy Tourist Tubes to match.

Get Goodyear Tire Economy for That Smaller Car

Just as owners of the highest-priced automobiles get greater mileage and economy out of Goodyear Tires, so can the owners of smaller cars similarly enjoy Goodyear advantages.

The 30x3, 30x3 1/2, and 31x4-inch sizes of Goodyear Tires are built to afford a money's worth in performance and satisfaction which only the utmost in experience, resources and care can produce.

This extraordinary money's worth begins not only with the merit of these tires, but also with the first cost, which in most cases is no greater, and sometimes actually is less, than that of other makes of the same types of tires.

Go to the nearest Goodyear Service Station Dealer for Goodyear Tires for your Ford, Chevrolet, Dort, Maxwell, or other cars taking these sizes. He is ready to supply you Goodyear Heavy Tourist Tubes at the same time.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water—\$4.50 proof bag.
